

special advertising opportunity

Product Showcase

Appears in the February, June and October issues of *Pipeline & Gas Journal*. It features highlighted products, services, and literature for the pipeline and gas utility industry.

Promote your product or service three times a year in full color with this special advertising marketplace. Showcases are a great way to introduce a new product, highlight an existing product or explain your company's services with an image, written description and contact information.

Cost: \$750.

PRODUCT SHOWCASE
Innovative techniques, systems and equipment designed to save time and money...

T.D. Williamson Engineered for wet gas and other pipeline systems meeting routine pigging to prevent liquid hold-up that limits the SmartPig® Automated Corrosion Pigging System releases spheres and piglets using a dual launch pig system. Also launches cleaning and... www.tdwilliamson.com	Vermorel The Vermorel BORESTORE is a complete IED testing and accessories warehouse where contractors can conveniently shop in one of three ways online at BORESTORE.com, by phone through the BORESTORE toll-free center at 1-866-VERMOREL or by visiting any one of 120 Vermorel dealers coast-to-coast for local territory. www.Vermorel.com
ROSEN — 30 Years of Innovation Closely collaborating with pipeline operators, ROSEN has developed inspection technologies for challenging pipelines and ILI for thirty years. And our innovative inspection solutions benefit both ROSEN clients and the pipeline industry at large. One of the latest developments is our truly unique in-line inspection solution for multi-diameter pipelines. www.roseninspection.net	Elster Elster's 1800 PPM Series Industrial Regulator Regulators are designed for high capacity applications that demand precise inlet pressure control across a wide flow rate range. 1800PPM's are rated for 125 PSIG inlet pressure and can deliver 7" WC to 30 PSIG to within ± 1% FSIA. www.elster.com/gas
Protal 7200 Densco's Protal 7200 is a 100% solid, fast cure epoxy coating that can be hand or spray applied to girth welds, tie-ins, fittings and rehabilitation of existing pipelines. Exhibits outstanding abrasion and chemical resistance and has excellent cathodic disbondment results. For information on all your corrosion protection needs, contact Densco at 1-888-821-2380. www.densona.com	Boscom-Turner Instruments With state-of-the-art electronics, an intuitive user interface, PPM sensitivity, optional sonic sensors, Bluetooth, GPS, enhanced data logging, and automatic one gas calibration from a single cylinder of gas, the Gas Ranger™ and Gas Explorer™ offer the most cost-effective solution to leak detection in the industry. www.boscomturner.com
Protal 7125 Densco's Protal 7125 is a fast cure, low temperature coating that can be applied down to -4°F (-20°C). The coating can be backfilled in 30 minutes at 50°F (10°C). Used for girth welds, tie-ins, rehabilitation and repairs to PPE. For information on all your corrosion protection needs, contact Densco at 1-888-821-2380. www.densona.com	Intracore™ ... high productivity, high-quality joint coatings. The world's first automated system bringing factory-grade performance and quality to field-joint coatings. Compatible with Canusa CPS high-performance heat-shrinkable sleeves, it can be supplied in a turnkey contract or as a lease package with training and supervision. www.canusa.com
Polyguard Non-Shielding Corrosion Coating Newly issued DOT regulations (192.112 Additional Design Requirements for Steel Pipe Using Alternative MAWP) directly require use of non-shielding coatings. Polyguard RD-6 is one of only two proven non-shielding coatings, with 22 years and thousands of installations. Don't learn about shielding corrosion coatings the hard way. www.polyguardproducts.com/nonshieldingcoating.htm	ROTORK Actuators Rotork offers an extensive range of electric, fluid power, and electro-hydraulic valve actuators for pipeline and gas applications, including the RQ-Pro electric, non-intrusive valve actuators. It features a powerful data logger that stores torque profiles, number of operations, valve and actuator positions, and other vital data. www.rotork.com

monthly columns and every issue content

Editor's Notebook: Every month, P&GJ editor Jeff Share offers his award-winning perspective of events that impact, or have the potential to impact, virtually every sector of the energy industry.

In The News: The latest information from around the nation and the world affecting the energy transportation business, presented in a brief, concise format.

World News: Every month P&GJ takes a special look at oil and gas pipeline-related news globally, in addition to highlights from challenging subsea projects.

Projects: P&GJ maintains an ongoing watch on pipeline projects of all sizes either under way or in the planning stages, designed to bring oil and gas to consumers throughout North America and the rest of the world.

Government Guidelines: From Washington, D.C., P&GJ Contributing Editor Stephen Barlas keeps readers closely informed on all regulatory and legislative rulings and decisions that affect pipeline industry operations and economics along with reaction from industry association executives.

Offshore Review: Each month, P&GJ provides exclusive coverage of major offshore pipeline projects, in addition to informing readers about recent events or changes that might impact future development activity.

Features: Every issue, P&GJ focuses on the latest technical information relevant to pipeline operations. P&GJ editors also interview exclusively and at length the leading executives who make the vital decisions upon which the pipeline industry functions.

Q&A, Executive Profile: Interviews with industry leaders and personalities.

Business: Who's been hired, promoted or changed jobs is listed for key personnel among energy companies and suppliers. Corporate mergers and acquisitions, relocations, name changes and honors.

What's New: The newest in a vast array of equipment and services available to pipeline companies and gas distribution utilities is presented every month.

Meetings: A complete menu of key seminars, conferences, exhibitions and other meetings related to the energy business is published monthly in the Calendar.
